

# RAINWATER HOG

## Award-winning rainwater storage

50 gallon modules

- Modular design with extendable capacity
- Built for reuse with 20 year design life
- Designed to withstand temperature extremes
- FDA-approved potable non-offgassing plastic
- Simple installation and operation
- Contributes up to 9 LEED points

### HOG FACTS

- 2 HOGs full of rainwater can
  - irrigate a 140sq ft NYC garden year round
  - provide 25 days emergency water for 4 people
- 6 HOGs could rain-flush a Chicago 2 person household all year
- 6 HOGs could run a front load washer all year for a Boston 4-person household
- the PH of rainwater is gentle on clothes
- All Hog colors are UV-stabilized
- HOG's used inside a building can offset peak energy loads

The Rainwater HOG
